Research Proposal

Detailed Plan:
A research proposal is a structured document that describes

- what you plan to study
- why it is worth studying, and
- how you will conduct the research.

Formal Request:
It is often used to request approval or funding for the proposed research from supervisors, committees, or funding bodies.

Priya Structural can now join this meeting

People

- Rajalakshmi J (You) Meeting host
- Abisheka C

Components of a Research Proposal

Title: A concise and descriptive title that clearly indicates the topic of the research.

Abstract: A brief summary of the research proposal, highlighting the main objectives and the significance of the study.

Introduction: An introduction to the research topic, including background information and the significance of the study.

Review: A review of existing research related to the topic, identifying the proposed research aims to fill.

Methodology: A detailed description of the research design, methods, and procedures to be used in the study.

Outcome / Results: An outline of the anticipated findings and their impact.

Financial plan: A financial plan that details the estimated costs and how the funds will be used.

Schedule: A schedule of the research activities and milestones.
